JUNIOR FRONT-END DEVELOPER

PROFILE

Hi, my name is Dmytro, and I'm learning front-end development. So far, I'm interested in all that will help to better master this profession. Stubborn and motivated to develop my skills and abilities to grow professionally. I love turning layouts into websites. I have theoretical and practical experience in the front-end that is necessary for a successful start in this position.

In my free time I like to play with friends in a band, or spend time on walks.
